The Nine Senses of the Fay-Touched

- **Fay-Fated**
 - The Fay-Fated live as vessels of the Fairy Realm itself, their lives woven of enchantment as they naturally amplify its magic and make space for the Fay to dwell across worlds.
- **Fay-Headed**
 - To the Fay-Headed, the Fairy Realm opens with ease, granting them intuitive sight beyond the veil and guiding them as natural navigators between its many Domains.
- **Fay-Sighted**
 - The Fay-Sighted behold the Fay as if incarnate, their waking visions and dreaming memories alive with vivid encounters from within the Fairy Realm.
- **Fay-Touched**
 - Administrators of the other Fay-senses, The Fay-Touched wield the magic of incantation and enchantment as master intermediaries, working in close stewardship with the Fairy Realm while remaining unbound by it.
- **Fay-Hearted**
 - The Fay-Hearted carry a living garden within, their open and radiant hearts drawing the Fay toward them in loving, magnetic communion.
- **Fay-Spirited**
 - The Fay-Spirited are lit from within by their own Fay essence, instinctively recognizing and attracting the Fay through the glow of their inner magic.
- **Fay-Souled**
 - The Fay-Souled move through this world with echoes of previous/parallel incarnations in the Fairy Realm, their souls remembering most clearly where the veil grows thin.
- **Fay-Blooded**
 - The Fay-Blooded bear magic in their lineage, a living inheritance carried through their blood and passed onward across generations.
- **Fay-Sourced**
 - The Fay-Sourced act as quiet conduits of enchantment, amplifying the Fay's presence through a luminous energy that calls to them, even unconsciously— as if guided source/supra-consciously.
- **Fay-Bound**
 - The Fay-Bound are eternally tethered to the Fay by fate, blood, or devotion, their bond unbreakable as they embody the legacy, love, and continuity of the Fairy Realm.
